# ISPAD 2011

Miami, USA

October 19<sup>th</sup> – 22<sup>nd</sup>, 2011

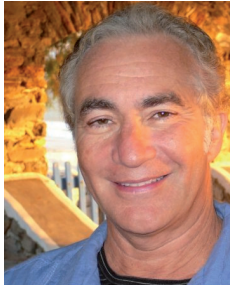

Possibilities for Prevention of  
Diabetes and Its Complications

[2011.ispad.org](http://2011.ispad.org)

## Dear Friends,

It is a great pleasure and privilege to invite you to attend the 37th Annual Meeting of ISPAD, to be held in Miami October 19-22, 2011. This will mark the first time since 2000 that the meeting will be held in the USA, and first time ever for Miami to be the host city. Miami will be a great venue for ISPAD with its pleasant subtropical climate, the beauty of Biscayne Bay and the Atlantic Ocean, its colorful Art Deco architecture and trendy South Beach area, and its unique mix of international culture, flavors and sounds. Having lived in the Miami area for almost 20 years, I can assure you it is a beautiful, vibrant, interesting, fun and magical city.

**Alan Delamater**  
Conference President  
University of Miami  
Miller School of Medicine

The ISPAD scientific meeting is always an outstanding annual event. At the Miami meeting, we will have plenary sessions, symposia, paper and poster sessions, and workshops addressing the cutting edge science of pediatric diabetes care. The theme of the 2011 meeting will be “Possibilities for Prevention of Diabetes and its Complications.” We all work to prevent complications in our patients with diabetes. The best chances for accomplishing this is through integrated comprehensive care addressing medical, behavioral, and psychosocial needs—and this issue will be highlighted in the meeting. We will also focus on primary prevention of diabetes. My colleague and co-chair of the organizing committee, Jay Skyler, MD, will lead a special session on the latest efforts to prevent type 1 diabetes in children, and we will also have a session focusing on prevention of type 2 diabetes.

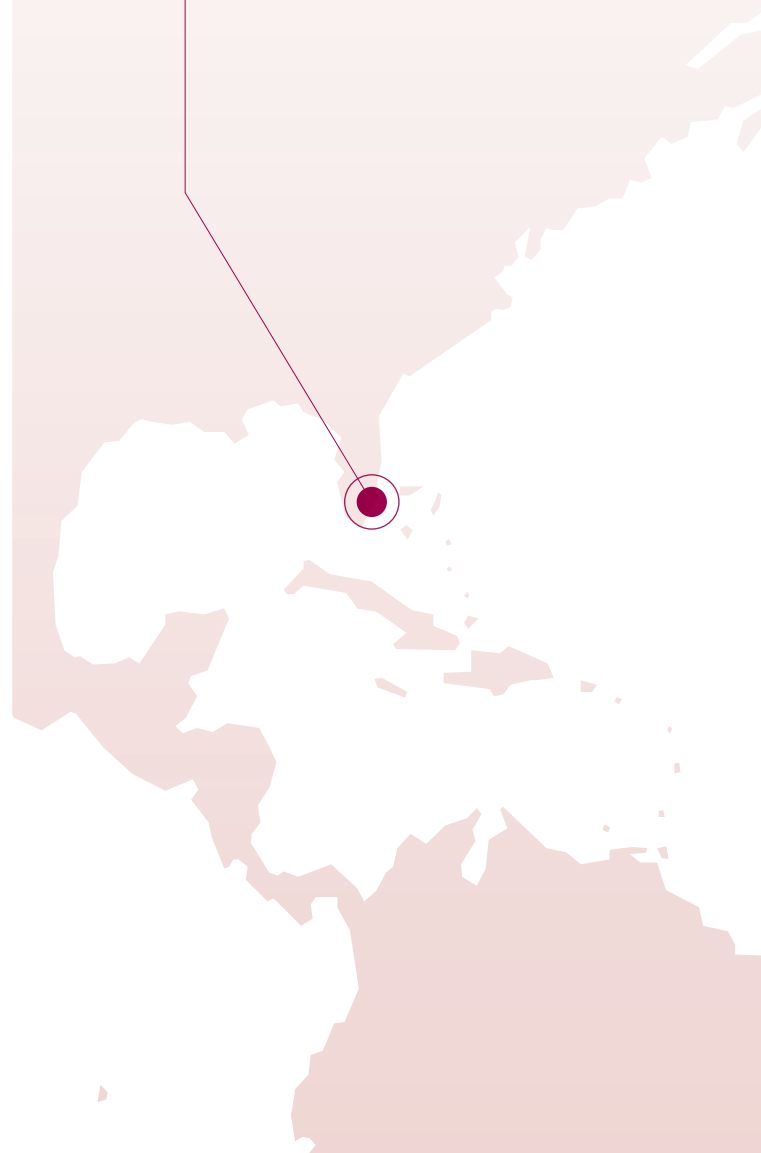

We all look forward to the annual ISPAD meeting not only to catch up on the latest science, but also to catch up on our ISPAD friendships. We are arranging some special social events in which to do this and also enjoy the unique natural and cultural environment Miami offers. So pack your bathing suits, and dust off your dancing shoes! (And just in case you don't know how to dance the salsa, we will offer salsa lessons at the meeting).

On behalf of the Organizing Committee, I look forward to welcoming you to Miami in 2011.

## Miami

ISPAD 2011 will be held in the city of Miami, Florida, USA which has evolved into a great meeting destination, known not only for the pleasant climate, but also for the developing services and geographical location for international meetings.

Miami's International Airport with high scores both in national and international rankings, has good international flight connections easily bringing in ISPAD's participants from all over the world.

## Scientific Program

Over 4 days, ISPAD 2011 will feature the latest results and insights from diabetes research, continuing successful topics from past years while at the same time putting emphasis on basic research.

**Topics:** Diabetes Acute and Chronic Complications, Diabetes Care, Education, Psychosocial Issues, Diabetes Epidemiology, Type 2 Diabetes in Children, Diabetes and Puberty, Monogenic Diabetes forms and their treatment, New Insulins and Pharmacologic Agents, Pumps and Sensors, Diabetes Genetics, Immunology, Diabetes and Obesity
